See Who Has Requested an Appointment with You and Submit a Mutual Request

Note: Mutual requests are given the highest priority during the scheduling process. See <https://www.ipw.com/appointments> for the matching order.

1. Click on the “Who Requested Me” button in the block of buttons at the top of the screen to display only those companies that have requested an appointment with you.
2. Check the status to determine whether you also requested that company.
3. Click “Add Request” to submit a mutual request.

Email a Company on the List

1. Click on a company name and then click the “Send Email” button in the block of buttons at the top of the screen.
2. To select multiple companies, click on each company name; each recipient will be blind copied on the message.
3. You can also email all of the requests on your list from the View/Prioritize My Requests tab.

Navigating the View/Prioritize My Requests Tab

Note: When attempting to schedule requests that are not mutual, the system looks to the prioritization list. “Marketing and Technology Provider-only” requests are processed in order according to the priority you set on this screen. Therefore, you should weight your most critical targets with the highest priority to increase your chances of securing a computer-generated appointment with companies that have not also requested you.

1. Click on the “View/Prioritize My Requests” button in upper left to switch from the default view.

2. You can re-order your list by clicking on the up or down arrows next to the company name, or you can simply type the appropriate number in the box in the Priority column, hit Enter, and the system will re-number all of the other appointment requests accordingly.

	Priority	Company	Country	Information	Remove
▲ ▼	1	9/11 Memorial & Museum	United States		<input type="checkbox"/>
▲ ▼	2	Accent On Dining	United States		<input type="checkbox"/>
▲ ▼	3	1 Hotel South Beach	United States		<input type="checkbox"/>
▲ ▼	4	Alamo National Enterprise	United States	Mutual	<input type="checkbox"/>

U.S. Travel Association's ipw.com Tutorial: How to Request Appointments – Marketing and Technology Providers Version

- You can also **remove a request** – simply check the box in the Remove column.

	Priority	Company	Country	Information	Remove
^	v	1	9/11 Memorial & Museum	United States	<input type="checkbox"/>
^	v	2	Accent On Dining	United States	<input type="checkbox"/>
^	v	3	1 Hotel South Beach	United States	<input type="checkbox"/>
^	v	4	Alamo National Enterprise	United States	Mutual <input type="checkbox"/>

DO NOT click the Remove All button unless you are sure you want to erase all of your existing requests.

- Click the “**Submit Changes**” button to save your edits.

Email Your List of Requests

- To send yourself or a colleague a summary containing the list of the requests you have made, simply **click** on the “**Email**” text link (not the blue button) at the top of the screen.
- Be sure to check your SPAM or junk folders if the email does not arrive in your in-box in a few minutes.

Finishing Your Request Session and Logging Back in to Make Changes

- You may log back into the Appointment Request software and change your requests as many times as you like before the deadline date (shown on the left side of the screen, below your name and company name). Check back frequently to search for exhibitors and buyers that may have registered after you prepared your original request list.
- The date you submitted your requests has no bearing on the prioritization of appointments being scheduled. Requests submitted the day the system opens are given the same weight as requests submitted five minutes before the system closes.

Note: If at any time during your session, you are unsure of what a button or column means, click the Help button at the top of the screen for a quick explanation.
